Reducing African American Infant Mortality in San Francisco
A cultural competency training for providers

DATE:
May 27, 2010
9:00am - 1:00pm
Registration/refreshments:
8:30 - 9:00 am

UCSF Laurel Heights Campus
3333 California Street
San Francisco, CA 94118

This workshop is based on the work of the Seven Principles Project, a partnership of community organizations designed to improve the health and survival of African American infants and their families.

All medical providers, nurses, marriage and family therapists and social workers working with African American infants and families are cordially invited and encouraged to attend. At the end of this presentation, participants will be able to:

- Discuss infant mortality rates and disparities in San Francisco.
- Understand and delineate three ways to improve the patient encounter in the area of race and culture.
- Name three models of effective patient communication.
- Identify next steps in developing institutional cultural awareness.

REGISTRATION

The training and continuing education are free of charge. Pre-registration required. Space is limited.

Register Online: https://www.ucsfhealth.org/secure/cultural.html

Please register by May 14 for the training.

The workshop is accessible to persons with disabilities; please contact us at least 72 hours in advance if you require assistance or accommodation. Also contact us beforehand if you would like to arrange a lactation room.

For more information, please contact Isabel Auerbach at (415) 575-5684 or email:
